FOR LAUNDRY WORK

METHODS BY WHICH STAINS MAY BE REMOVED.

Discolorations from Different Sources Require Varied Treatment-Texture of Material Is Also to Be Considered.

All stains are best removed immedi ately when possible as they are more difficult to dislodge if allowed to dry.

Milk and meat stains should be washed out with warm water, but fruit, tea, chocolate and coffee are removed with boiling water. Place the stained linen over a bowl and pour boiling water on the stain, holding the teakettle high enough to let the water fall with some force on the stain Old tea stains will sometimes yield to boiling water if they are first saturated with glycerine. When stains have been overlooked until dry and set by soap suds in washing, they often require special treatment,

Sulphur fumes are an effective bleaching agent. Take an old plate and a tin funnel, place them where the aig will carry away the fumes from the person working on the stain, wet the stain with cold water, put it over the small end of the funnel, which is turned down over the sulphur burning with a small coal on the plate. Keep wetting the stain and the fumes which rise will bleach the spot from the tinen. Wash and rinse well. Fruit stains can often be removed from the hands by the use of fumes from a lighted match.

To remove iron rust, saturate the spots with lemon juice and sait and lay in the sun, repeat when dry or until spot is removed.

Grass stains may be removed by rubbing with molasses, then wash as usual. On unwashable material, wet the spot with alcohol and rub toward the center with a white cloth,

Peach stains are the most obstinate to remove. Acid or jarelle water are frequently the only means of removing them is allowed to become fixed. Ammonia should be applied after using any acid and then the labric cliculd be well washed and rinsed.

To remove paint on flour sacks, rub well with soft soap, then put to soak in warm suds. The next day wash and boil

Blood stains should be softened in cold water, then soaked in warm suds.

To prepare jarelle water, put into a granite-ware saucepan one-half a pound of sal, soda, two ounces of chloride of lime, pour over this one quart of boiling water and allow to When the water has dissolved all it will, pour the clear water off, bottle and set away for a stain remover and a bleacher. Add more hot water to the remaining part and bottle in the same way. In using jarelle water, place the stained portion of the goods over the bottom of a platter and apply the jarelle water with a brush or swab. Rinse quickly in clear water, then in ammonia. If the stain has not disappeared, treat in the same manner again, being careful to use the ammonia that the fabric may not be injured.

NELLIE MAXWELL.

Marzipan Biscults.

Required: Almond paste, apricot jam, leing, a few pistachio nuts.

Make the almond paste the same as for raspherey fingers, but roll it out rather thinner, in the place of rapberry lam spread a little sieved apricot jam. Stamp it into neat rounds. ice, and decorate them with a few shreds of pistachio nuts.

Sponge Cake.

Place upon the stove one-half cup milk, one tablespoon butter. Beat two eggs together with one cup sugar, stir in one cup flour, one teaspoon of baking powder, then add hot milk and butter, one teaspoon of vanilla. Beat thoroughly. This makes a fine grained cake and is inexpensive.

Time will tell-unless the gossips beat it under the wire.

"Why don't you mend that large hole in your umbrella?"

"I keep it to put my hand through to see if it is still raining."—Meggendorfer Blaetter.

GAVE HER AN IDEA.

Cycle Dealer-Here is a cyclometer I can recommend. It is positively accurate; not at all like some cyclometers, which register two miles, perhaps, where you have only ridden one. Miss de Byke-You haven't any of

that kind, have you?

BAD DREAMS Caused by Coffee.

"I have been a coffee drinker, more of less, ever since I can remember, until a few months ago I became more and more nervous and irritable, and finally I could not sleep at night for I was horribly disturbed by dreams of all sorts and a species of distressing nightmare.

"Finally, after hearing the experience of numbers of friends who had quit coffee and were drinking Postum, and learning of the great benefits they had derived, I concluded coffee must be the cause of my trouble, so I got some Postum and had it made strictly according to directions.

I was astonished at the flavour and taste. It entirely took the place of coffee, and to my very great satisfaction, l began to sleep peacefully and sweet-My nerves improved, and I wish I could wean every man, woman and child from the unwholesome drug-orilnary coffee.

People really do not appreciate or realize what a powerful drug it is and what terrible effect it has on the human system. If they did, hardly a pound of it would be sold. I would never think of going back to coffee again. I would almost as soon think of putting my hand in a fire after I had once been burned.

"A young lady friend of ours had stomach trouble for a long time, and could not get well as long as she used coffee. She finally quit coffee and began the use of Postum and is now perfeetly well. Yours for health."
